About Me

I am a passionate and dedicated Network and Security Specialist with a strong background in network protocols, penetration testing, and full-stack development. With a keen interest in cybersecurity and a drive to continually expand my knowledge, I have worked on numerous projects that showcase my technical skills and problem-solving abilities. I thrive in environments that challenge me to learn and grow, and I am always eager to take on new opportunities that push the boundaries of my expertise.

Education

Universiti Teknologi Malaysia (UTM) - Major in Network and Security

Professional Experience

Freelancer - Full Stack Developer

LanguageAcademy - GitHub: https://github.com/lectures2/languageAcademy

Water Monitor System - GitHub: https://github.com/lectures2/water-monitor-system

Get Me Hired - GitHub: https://github.com/lectures2/Get-me-Hired-PRO

Worldwide - GitHub: https://github.com/lectures2/

Chatbot - GitHub: https://github.com/lectures2/

Simple Chatbot - GitHub: https://github.com/lectures2/

Javascript Game - GitHub: https://github.com/lectures2/

Technical Skills

· Network Protocols   · Linux (Kali Linux)

· WiFi Cracking (wifite, airmon, bettercap)   · Spoofing   · Bug Scanning

· Penetration Testing (6 months experience)   · Burp Suite (3 months experience)

· Metasploit (3 months experience)

· Full Stack Development (HTML, CSS, JS, Node.js)

· ChatGPT Experience (2+ years)   · Node.js Development (1 year experience)

Additional Skills

Project Management: Experienced in managing and coordinating multiple projects simultaneously to ensure timely delivery and adherence to budget.

Problem-Solving: Strong analytical and troubleshooting skills to identify and resolve network and security issues efficiently.

Communication: Excellent verbal and written communication skills, enabling clear and effective interaction with team members and clients.

Collaboration: Adept at working in diverse teams and fostering a collaborative environment to achieve common goals.

Adaptability: Quick to adapt to new technologies and industry trends, ensuring up-to-date knowledge and skills.

Attention to Detail: High level of precision and accuracy in tasks, particularly in network configurations and security protocols.

Time Management: Proven ability to prioritize tasks and manage time effectively to meet deadlines.

Continuous Learning: Committed to ongoing education and professional development, including attending workshops, webinars, and industry conferences.

Customer Service: Skilled in providing exceptional customer support and maintaining positive client relationships.

Multitasking: Capable of handling multiple tasks efficiently in high-pressure environments.

Innovation: Always looking for innovative solutions and improvements to enhance system performance and security.

Technical Documentation: Proficient in creating detailed technical documentation for various network and security processes.

Achievements & Certifications

Computational Thinking Through Robokar Workshop (26th January 2021)

Sangfor Cyber Guardian Firewall - Your Managed SOC Solution (13 - 15 December 2022)

Cisco Network Security (4th August 2023)

Cisco IoT Fundamentals: Connecting Things (2nd August 2023)

Cisco Internetworking Technology (10th April 2022)

Cisco CCNAV7 Switching Routing and Wireless Essentials (13th November 2021)

Projects

I have worked on over 20 projects, which are available on my GitHub: https://github.com/lectures2?tab=repositories. These projects include various full-stack applications, network security tools, and automation scripts. Additionally, I have developed a personal website to showcase my work: https://saifwebsolutions.github.io/SaifWebSolutions/.

One of my notable projects is a Roblox game, which you can check out here: https://www.roblox.com/games/15872323663/pk-kill-go.
